

MSI-Core Engine Migrating Guide

I. Prerequisites

- ✓ BBPixel jvbPlugin for Joomla **1.5.x** – vBulletin **3.x**
- ✓ BBPixel jipbPlugin for Joomla **1.5.x** – IP.Board **2.x**
- ✓ PHP 4.1.x or later
- ✓ Mysql 4.1.x or later

II. Migrating from jvbPlugin

Scenario: We will need to Un-install whether jvbPlugin or jipbPlugin, after that we will do clean new install for MSI core engine (check in ***InstallGuide.MSI.doc*** insides each MSI core package).

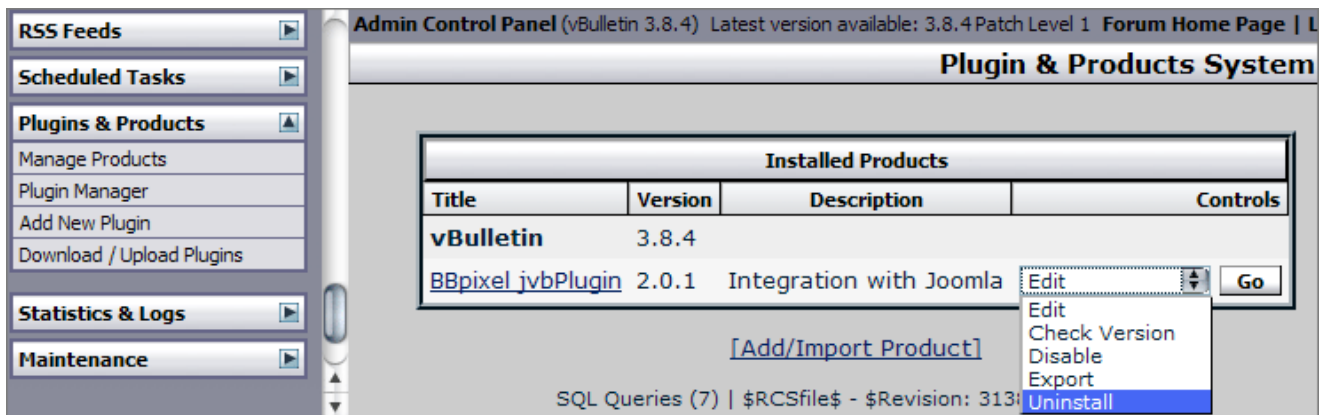

Note:

Skipping **II.B** if you are using jvbPlugin, otherwise skipping **II.A** if you are using jipbPlugin.

A. Uninstall jvbPlugin

1. vBulletin side

- a. Go to vB Admin CP -> Plugins & Products -> Manage Products in order to Uninstall BBPixel product.

- b. Delete "**yoursite.com/vBulletin/pluginpixel**" folder.

2. Joomla side

- a. Joomla Admin CP -> Extensions -> Plugin manager
 - Uninstall :: Authentication – jvbPlugin
 - Uninstall :: System – jvbPlugin
 - Enable :: Authentication - Joomla

- b. Joomla Admin CP -> Extensions -> Module manager
 - Uninstall :: jvbPlugin Latest Posts (mod_jvb_latestpost)
 - Uninstall :: BBPixel jvbPlugin Login (mod_jvb_login)
 - Uninstall :: BBPixel jvbPlugin Who's Online (mod_jvb_whosonline)

B. Uninstall jipbPlugin

1. IP.Board side

- a. Replace "[yoursite.com/forum/modules/ipb_member_sync.php](#)" with the original file of IP.Board package.
- b. Delete "[yoursite.com/vBulletin/pluginpixel](#)" folder.

2. Joomla side

- a. Joomla Admin CP -> Extensions -> Plugin manager
 - Uninstall :: Authentication – jipbPlugin
 - Uninstall :: System – jipbPlugin
 - Uninstall :: User – jipbPlugin (optional)
 - Enable :: Authentication - Joomla
- b. Joomla Admin CP -> Extensions -> Module manager
 - Uninstall :: BBPixel jipbPlugin Latest Posts (mod_jipb_latestpost)
 - Uninstall :: BBPixel jipbPlugin Login (mod_jipb_login)
 - Uninstall :: BBPixel jipbPlugin Who's Online (mod_jipb_whosonline)

C. Install MSI Core

Please checking InstallGuide.MSI.doc insides MSI Core package for more details on how to do.
